PEACE CONFERENCE HELD A MEETING

An Ajournment Taken Until Monday to Consider Terms.

CZAR WILL DIVIDE SAKHALIN

Russia Willing to Pay for Maintenance of Prisoners--Will Not Pay Indemnity--If Not Satisfactory War Will Continue.

Special to The Daily Sun.

Jacksonville, Aug. 26.—An Associated Press dispatch from Portmouth announces that the Peace Conference met today and adjourned until Monday. Ambassador Myer cabled the President that the Czar will not pay one penny of indemnity in any guise. He is ready to agree to a division of Sakhalin island and pay for the maintenance of prisoners. If Japan does not accede to those terms the war will continue.

Portsmouth, N. H., August 26.—The peace situation now awaits the result of the pour parleurs known to be in progress between President Roosevelt and Emperor Nicholas, and believed to be also going on between the head of the United States government and Tokio. Mr. Witte privately makes no concealment of the fact that for the present his task is ended. He has gone as far as he can without his emperor's consent.

There is no additional light to show exactly what the president is doing. Should no final result be achieved, or should final definite instructions be received today or tomorrow, pretext will be found tomorrow for the adjournment of the conference until Monday, or Tuesday. The comedy of a meeting will be enacted and a postponement arranged to give the men in whose hands lies the fate of the negotiations, time to make up their minds.

Oyster Bay, August 26.—Baron Kaneko had an interview with President Roosevelt today, the third within ten days. He arrived on a Long Island railroad train at 10:30 a. m.

"I cannot talk now about my mission to the president," he said. "I would be delighted if I could. Some day I'll tell you all about it."

He was asked if he had seen the statement of Count Lamsdorff, the Russian minister of foreign affairs, in which he declared Russia would pay no indemnities to Japan or make any cession of territory.

"Oh, yes," he rejoined, "I have seen it. I think is was a great mistake."

"In you opinion," the baron asked, "was Count Lamsdorff's statement truly representative of the intentions of Russia or was it in the nature of a bluff?"

"It was official, I understand," responded the baron, "and I so I suppose we must swallow it."

"What do you think of the prospect of a successful issue to the peace conference?"

Baron Kaneko hesitated an instant and then with a shrug of his shoulders, he replied.

"Oh, it is very much like the weather down here; it is very much." A rain was falling heavily and the sky was dark and gloomy and disagreeable.

Conference at St. Petersburg.

St. Petersburg, August 26.—After seeing foreign Minister Lamsdorff yesterday afernoon, Mr. Meyer, the American ambassador sent another long dispatch to Washington last night. It is impossible to learn the nature of this dispatch, the embassy declining to make any statement regarding it. Count Lamsdorff saw the emperor again yesterday. A special council of foreign office officials with Count Lamsdorff, presiding, will be held at 4 o'clock this afternoon at which certain matters bearing on the peace negotiations will be discussed.

Anxiety in French Capital.

Paris, August 26.—A sentiment of deep anxiety prevails in official quarters here concerning the outcome of the Portsmouth conference owing to the receipt of discouraging advices. Private reports received through official channels, show that Grand Duke Vladimir, uncle of the emperor, is casting his powerful influence in favor of peace.

Japanese Visit Cotton Mills.

Manchester, N. H., August 26.—The train from Portsmouth to which was attached the special car of members of the Japanese peace delegation arrived in this city at 10:15. The visitors did not alight at the station but waited until their car had been swiched on to other tracks and ran direct ly into the yard of the Amoskeag manufacturing company. There the party came out and imediately began a tour of the big mills of the corporation.

Reports Not Pleasing to Army.

Godzyadani, Manchuria, August 26.—Rumors that Russia will cede the Island of Sakhalin and pay an indemnity to Japan and reached the army and they have produced an unfavorable impression.

The emperor's manifesto proclaiming a national assembly and the outlines of the institution also reached the front and were read with deep interest by the army. Even the peace negotiations were forgotten for the time being in the discussion of the project and its details.

OBJECT TO THE SITUATION.

Many Georgians Opposed to Locating Reformatory at Prison Farm.

Macon, Ga., August 26.—Strong protest is being made against establishing the state reformatory provided for at the last session of the legislature upon the state prison farm. Representative T. B. Felder, of Bibb, who was the author of the bill creating the reformatory, and Messrs. Hall and Davis, Bibb's other members of the lower house, have been busy explaining to friends here how the bill would have been lost if protests had been made against locating the institution at the prison farm.

Macon has afforded strong support to this more, and since it has developed that the prison farm must become the site, strong objections have been offered. Some have gone far enough to say that the bill ought to have been lost if other arrangements could not have been made. The objection is the the reformatory in its very nature is such an institution as should be as far from the prison farm as the projectors could place it.

COTTON DSETROYED BY FIRE.

Conflagration in Brooklyn Causes Loss of Half Million Dollars.

New York, August 26.—A loss of more than half a million dollars was caused by a fire in stores 39, 40 and 41 of the extensive plant of the Bush Terminal Warehouse company, at the foot of Forty-fourth street, Brooklyn.

Started by lightning, during a terrific storm just before midnight, the fire was still burning at an early hour this morning. The firemen then expected to confine the flames in the one big building in the Forty-fourth street block. The Bush stores extend from Forty-fourth to Fifty-eighth streets.

Filled with thousands of bales of cotton, consigned to brokers in Manhattan, the warehouse burned fiercely and stubbornly. The fire department was handicapped by a lack of water in that section of Brooklyn, only one main being available. Fire boats from the side of the burning structure did the most effective work.

Train Kills 24 Horses.

Nashville, Tenn., August 26.—Twenty-four horses were killed outright, another died of his injuries and 12 more so badly malmed they were destroyed, as a result of an accident on the Louisville and Nashville railroad, at Edgefield Junction, 12 miles north of here. The horses were shipped from East St Louis, to a Nashville firm and had been unloaded to be driven into the city. As they reached a railroad crossing Louisville and passenger train No. 54, bound for St. Louis, swept around a curve and then plunged at full speed into the drove. Strange to say, the train suffered no damage, and after a slight delay, continued its run.

TO CHECK YELLOW FEVER BY OCTOBER

Is the Hope of Those Who Have Charge of Situation.

TOTAL CASES 1,619; DEATHS, 229.

The Federal Authorities Say Their System is Perfect and If the Citizens Will Follow Their Directions the Plague Will Soon Vanish.

Total cases to date—1,619.
Deaths—3.
Total deaths to date—229.

Surgeon White believes that with the assitance which has been rendered faithfully continued, yellow fever should be completely stamped out by Oct. 1, or before that date. There is reason to acept his premcises on the ground that diminution in new cases and deaths is found in the reports and the Italians whose excitability has given the authorities no end of trouble are becoming tractable.

New Orleans, August 26.—If all houses are properly disinfected and screened there are reasonable hopes of a complete cessation of yellow fever on or about Oct. 1, is the message of hope given by Surgeon White to a meeting that filled St. Paul's Episcopal church and over which Bishop Sossums presided. If the citizens will but do this, the doctor says, they will deserve the commendation of the civilized world.

Dr. White said the federal medical officers were now engaged in making a complete sanitary survey of the city. It was their purpose to acquire statistics covering every available portion of the municipality. Dr. White appealed for courteous treatment of and cooperation with his inspectors. He said the service was trying to locate every focus. That was necessary if the campaign was to succeed completely, and the urgency of co-operation was evidenced by the fact that only today a hitherto unknown focus in a generally infected section was discovered, a focus that the service had been searching for for some time.

At the beginning of the fight the doctor said there were one hundred of these unknown foci, five times the number that the Havana authorities would swamp them and create an epidemic in that city. The record shows, he said, what had been accomplished in running them down.

It is anticipated that when the authorities feel that their system is perfect, there will be an effort to weed out the cases of malarial and dengue fever from actual yellow fever, and when that comes to pass, the evidence will be clear of how successful has been the work of controlling the diseases.

Trying to Start Trains.

Governor Blanchard continues his efforts to keep the wheels of trains moving in Louisiana. He has put himself into communication with railroad officials wehrever there is an intterruption service if permitted to do so by the various communities. The governor expects to get the Memphis, Helena and Louisiana in operation again in a day or two. Unless he succeeds many people in north Louisiana, who depend on this line, will suffer for the necessaries of life.

President Souchon, of the state board, will go to Patterson, La., on Saturday to investigate conditions existing there. The people of that town would like the state board to take entire charge, and it may do so. The Patterson fever is so mild it with sufficient physicians and nurses and a strong executive head, it is thought the danger of fatalities can be minimized.

Considerable trouble is had with the Italian community at Good Hope, La., near the Mississippi Valley road, a short distance above New Orleans. An emergency hospital has been erected but the Italians are in rebellion against it, and there is not sifficient police force to compel them to submit to the regulations. It is not impossible if conditions fail to improve that the governor will be asked to send a force of troops into the parishes above New Orleans, to enforce obedience to official authority.

Dr. Ehlert left here today and was joined by Health Officer Aucion, of Assumption, at Shreve river. They will go Bayou Boeuf to investigate conditions there. Dr. Chassaugnac on yesterday discovered a large number of cases at Bayou Boeuf. They had not previously been reported, because there is no physician at the settlement. The focus was established through communication between Bayou Boueff and Patterson.

Professor Robert Boyce, of Liverpool, had a conference with Dr. Warner, and has agreed to fill some lecture engagements. He will speak at Temple Sinai Monday night.

Civil Engineers Held Up.

Complaint has been made to Attorney General Giuon, of the treatment of a party of civil engineers engaged to assist in the building of the Iron Mountain railroad between Eudora, Ark. and Gilbert, La. It has taken the party four weeks to get from Bay City, Tex., to Eudora. At McGehee, Ark., they were kept in their car for 30 hours without water or food in the belief that they had come from New Orleans.

Early Reports Encouraging.

The early report of the fever situation today was encouraging. There was a small report of new cases and only one death during the night. That was the case of an Italian woman, Mrs. Russo, living in Tchoupitoulas street. She had been ill for five days but called no doctor. Neighbors discovered her in a moribund conditon.

Surgeon Von E dorf visited the originally infected quarter today and after a thorough survey expressed the opinion that exceptionally fine work had been done there. Dr. Berry, who is slowly regaining his strength, has been placed in charge of the office in this district.

Dr. White said today that he had received advices from the Italian inspectors below Canal street that excitement among the members of the race was subsiding, that in many cases they were yielding to appeals not to scatter into other sections, and that they were showing themselves more amenable to the regulations. This is considered a most hopeful sign.

Senator McEnery visited Dr. White today and discussed the situation with him, offering any services he could render to aid the federal authorities.

Held at Quarantine.

New York, August 26.—Two of the crew of the steamer Chalmette from New Orleans today were removed from their ship at quarantine suffering from high temperatures and were transferred to Hoffman Island for observation.

CURE FOR CONSUMPTION.

Juice from Raw Vegeteables Will Stop Tuberculosis.

New York, August 26.—Physicians of this city are much interested in a circular issued yesterday by the post graduate hospital, announcing the discovery of a new cure for consumption.

This new remedy is the juice of raw table vegetables—potatoes, beets, carrots, onions, celery ad the like, procured by grinding and squeezing, a dose being two ounces at a meal. The statement is made that eleven patients which were well developed pulmonary tuberculosis victims have been absolutely cured and are now good subjects for life insurance risks. Other patients are still under treatment and are said to be progressing on at the hospital for several years, and occasional brief accounts have been published of cures alleged to have been accomplished. The basis of the work has been mad eto cure consumption beyond the incipient stage, an "unknown something must be found in the diet."

Prince Charles Becomes King.

Stockholm, August 26.—According to good authority the feeling in government circles regarding the accession of a Barnadotte prince to the Norwegian throne has undergone a complete change. King Oscar no longer opposes the acceptance of the crown by his son Charles. As soon as the union between Norway and Sweden is dissolved his answer will be given, and it probably will be affirmative.

EMPLOYE ABSCONDS WITH BANK FUNDS

Young Frenchman Becomes Infatuated With Actress.

SHORTAGE IS ABOUT $200,000

In Company with an Actress He Charters a Yacht and Sails for South America—Police on His Trail Succeed in Capturing Him.

New York, August 26.—Paris is agog with a sensation such as it has not enjoyed since the Humbert case, says the Herald correspondent.

Until the end of July Jean Callay was a punctual employe of a great Paris bank, earning the monthly salary of $60, out of which he maintained a wife and two children. At present he is said to be a fugitive aboard a chartered steam yacht, which left La Palmas Aug. 9, for Buenos Ayres. Discoveries of clever manipulations in the bank's books indicate an alleged shortage amounting to about $200,000.

Word has been received by the police that the yacht had arrived at Bahia, Brazil, and the party aboard was under arrest. A man supposed to be Gallay declared to the Bahia police that he was a Belgian. M. Hamard, chief of the Paris detective service, imediately cabled to Bahia for further news, and ordered the French detectives near Bahia to go immediately to that town to take possession of the prisoner as soon as the extradition preliminaries are accomplished.

Dentist Charged with Bigamy.

New York, August 26.—An indictment charging bigamy was found yesterday against Dr. Geoge A. Withhoff, a dentist and chemist who is claimed by the police to have a matrimonial record in nearly every large American city. Four women have been found who allege that they have been wedded to him and abandoned after having parted with all the money they possessed. Withhoff has not been seen in New York for several months, but the police men claim to have a clew to his whereabouts. According to the police the complainants have received letters from Chicago, St. Louis, Philadelphia, Kansas City, Buffalo and Cleveland against a men answering the doctor's description.

Woman Jumps Into River.

St. Louis, August 26.—Escaping from her niece who is taking her back to her home in Texas, after an illness, Mrs. Laura Oxford, aged 50, jumped from a Burlington train that had stopped on the Eads bridge today and was drowned in the Mississippi river below. Her body has not been recovered. Nervous trouble is responsible for the suicide. When the train stopped Mrs. Oxford, under the pretense of getting a drink of water. At the end of the car she opened the doors and before she could be restrained, climbed over the rail on the bridge and dropped out of sight.

Indiana Negro Church Dynamited.

Indianapolis, Ind., August 26.—As the result of a race war the negro Baptist church was destroyed early today by dynamite. It was under the altar. Bombs have been put on the trains of the perpetrators. Threats are being made that if any arrests are made in the town will be driven out.

Steamer is Floated.

New York, August 26.—The steamer Banes, which went ashore on the beach yesterday, floated off with assistance and came up the bay under their own steam. It was thought that the Banes had suffered serious damage as a result of the mishap.

Emperor of Korea's Birthday.

Seoul, Korea, August 26.—The emperor of Korea on the occasion of his birthday which was celebrated today granted an audience to the diplomatic corps and distinguished foreigners residing in Seoul. A popular demonstration took place in front of the palace.

RHEUMATISM
COMMON IN SUMMER

The time to get rid of Rheumatism is in Summer while the blood is endeavoring to purge itself of all poisons and impurities, and the skin is active, with all the pores and glands open and able, in this way, to assist in the elimination.

Columbus, O., 1355 Mt. Vernon, Ave. Six years ago I had a severe attack of Inflammatory Rheumatism, and the doctors I had did me no good. They changed medicine every week and nothing they prescribed seemed to help me. Finally I left off their medicine and began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my hands were so swollen and painful that I could not close them when opened. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and today I am a sound, well man and have never had a return of the disease.
R. H. CHAPMAN.

The inactivity of the Liver, Kidneys and Bowels causes the refuse matter to remain in the system, which, coming in contact with the different acids of the body, forms uric acid to be absorbed by the blood and distributed to the different joints and muscles, producing the pains, inflammation and other distressing symptoms of Rheumatism. The wandering pains of the disease remind the sufferer that the poison is still in the blood and he should lose no time in getting it out. S. S. S. neutralizes the acid and makes the blood rich and pure. It tones up every organ and cures the disease permanently. S. S. S. contains no harmful minerals to disagreeably affect the system, but while curing the disease builds up every part of the body by its fine tonic effect. WHAT MAKES A TOWN.

The Booster, Not the Knocker, is the Man to Cultivate.

"I have been away from Gainesville for some time," said a man who generally visits this city once in every one or two years, "and I can notice many improvements. I consider this town the most stirring of any inland city in Florida, and although I do not expect to see it reach over ten thousand population in my time, it certainly is sure to get up to that figure before long, and go higher."

Such remarks are frequently heard regarding this city, and coming as they do from men who have seen much of the country and are fair judges, they can be relied on with a large amount of certainty. As a rule the people of Gainesville have faith in the city, and although it has met with reverses in several ways during the years past, there are always to be found men who are ever ready to enlist in any enterprise or movement for the upbuilding and betterment of the town. With such men personal aggrandizement is a secondary consideration. They take pride in their town and talk for it, work for it and spend their money for it. They know that strength lies in unity and that he who pushes at the wheel of progress is the good citizen. They know also that general improvement and increase of valuations will benefit themselves. One of these is worth a carload of the grumbling pullbacks, yet one of the latter can do more harm than ought to be possible among intelligent people. The right plan for the citizens of a town to do is to encourage and brace up and help the town-builders in their efforts to do all the good they can for the general welfare.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

IS ARRESTED ON CHARGE OF MURDER

Deputy Sheriff Granger Lands Marsh DeBose in Jail.

MURDERED STEPNEY BROWN

Marsh DeBose Was Caught at Cadillac—He Will Answer to Charge of Murder—Took Place Near Melrose July 23—Both Colored.

After a family jar among some of the colored folks at Melrose, July 23d, Marsh DeBose, a colored man of about 18 years, shot Stepney Brown, aged about 45 years, and it was declared that the overdose of buckshot he received in his anatomy was the prime factor in his sudden demise.

DeBose, the fellow who was behind the gun, made his escape, and since that time has been eluding the officers. Deputy Sheriff Granger of this city, who has proven himself a good one on such cases, took up the case and has been working it so effectually that he at last landed his man behind the bars in the Alachua county jail.

The fellow was caught in a saw mill nearCadillac, where he has been employed for a short time. It is said that DeBose did the shooting from ambush, being concealed when Brown was passing along the road.

DeBose denies all knowledge of the affair, but Deputy Granger thinks he has sufficient evidence to convict him, from eye-witnesses of the affair. The officer certainly deserves credit for his good work.

THE FAIR ASSOCIATION.

It is Now Well Organized, and Some Excellent Work is Being Done.

The Alachua County Fair Association, which was organized a few days ago as an adjunct to the Florida State Midwinter Fair Association, has gotten matters down to a systematic basis with the result that very encouraging work is already being done by the commissioners, as well as other members of the Association.

It will be remembered that a number of commissioners were appointed from various sections of the county. Care was taken to appoint men of energy and influence, and so far the Association has not been disappointed, for many have gone vigorously and enthusiastically to work, and write that fine progress is being made, a number of exhibits for the State Fair having already been promised.

Maj. J. W. Tench, who has been appointed by the board of directors as collector and manager of exhibits, went to his duties with commendable promptness and energy, and deserves credit for his efforts, which are bound to bear fruit. Major Tench is determined that old Alachua will be among the first counties at the Fair as regards a general exhibit.

Major Tench requests The Sun to suggest to the farmers that this is the season to select many products of the farm, such as squash, kershaw, marrow or Boston squash, etc., and he would be glad to have growers select the largest and most perfect of these varieties. He also wants to remind the colored people that there will be a special department for them, and there is no reason why the colored people of the county cannot make a fine showing as Alachua county contains some of the most thrifty and industrious of the race in the State.

The educational exhibit from Alachua county should prove a winner. Nowhere in Florida can be found better examples or more efficient teachers, as was proven at the State Fair in Jacksonville in 1900, when four out of the five educational medals were awarded to Alachua's exhibit. Let us all get together.

NEWS FROM HAWTHORN.

Interesting Budget of News from That Lively Burg.

Hawthorn, August 24.—Mr. and Mrs. Y. Marvin Hulme have gone to Macon and Elberton, Georgia, to spend two weeks with relatives. They were accompanied by Miss Ruby Pledger, sister of Mrs. Hulme, who goes to enter college.

Miss Dolly Berkstresser left Saturday for Atlanta, where she goes to consult an optician.

Frazier Morriston has gone to Jacksonville, where he has accepted a position in a veneering mill.

Mrs. Dowling and Miss Della Strange are spending the week at Seabreeze.

Ernest McRae, for several years a student of the East Florida Seminary, will leave next week for Pittsburg, Pa., where he will begin the study of electrical engineering at the Carnegie School of Technology.

Since the rains ceased much cotton has been marketed and the cotton gins are running on full time.

Miss Jennie Johnson has returned from Micanopy after a visit of several days with relatives.

Harry Barnett, well and favorably known throughout the eastern part of the county, will open a mercantile business here in the near future.

The dry season was an ideal one for the hatching of quail and consequently the woods are full of them.

Mr. and Mrs. Holstein of Palatka have moved to Hawthorn, where they will reside in the future. Mr. Holstein has accepted a position with Johnson & Waits.

Prof. J. N. Overholtz filled the pulpit at the Methodist church Sunday evening and delivered an able address.

The many friends of Miss Ida Adkins, who was born and reared in this section, will learn with pleasure of her marriage to Mr. Drake at Birmingham, Ala., last Tuesday.

Dr. Means of McIntosh was a visitor Sunday.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

New Realty Company.

Dr. G. N. Davis, George W. Scofield and B. B. Hopson have formed a partnership, and will engage in the real estate business. The members composing this firm are hustlers, full of energy, and will no doubt make a fine success of the venture.

The office of the firm will be located in the Endel block, corner of West Main and West Liberty streets.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

HAD MANY NAMES

And Used Them to Get Goods at High Springs.

A fellow whose name is Peter Young had been working a very flimsy game on the merchants of High Springs, until finally they got next to his game and had him arrested.

It seems that he went to a large number of the stores in High Springs, and at each one, by telling a very plausible story would get credit, giving a fictitious name and a different one at each place. He was arrested by Marshal G. L. Bryant, had a hearing before Justice Bexley and given 90 days' camp duty in the manufacture of turpentine.

He was brought to this city yesterday by Marshal Bryant, and will be taken at once to the county convict camp.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

New Houses.

Mr. and Mrs. Robert Wixson are planning to take life easy this winter, and will build a comfortable cottage on East Union street, where they expect to reside.

Owen Lloyd, who has just finished his third cottage for this summer, on University street, has already secured a tenant and says he could rent more if he had them ready, but will not commence any more at present.

Peculiar Disappearance.

J. D. Runyan of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at all drug stores; price 25c.

KIRBY SMITH IS STILL THE LEADER

Polled a Larger Vote the Past Week Than Ever.

IS 45,351 VOTES AHEAD OF ALL

Ten Thousand Votes on Real Estate Transaction Omitted—Like Number Taken From Odd Fellows' Home. There Is a Hard Struggle on to Win.

At the end of the eleventh week the returns show that the friends of Kirby Smith Chapter have been at work and accomplished no small amount in getting votes. It shows what a persistent worker can do when a determined effort is made. The total vote for Kirby Smith Chapter this week would have been 25,000, if 10,000 votes had been given that order that were credited upon a real estate transaction; but as no votes known to be obtained in such manner from the W. R. Thomas firm can be counted, they were thrown out, and the 10,000 mentioned last week as obtained in similar manner are excluded from the total vote of the Odd Fellows' Home.

There has been some comment made in regard to these votes, and in order to show how the totals would be were they counted, we wish to state that Kirby Smith Chapter would have 127,627 votes, the Home 116,276, the Chapter leading by 11,351, according to the figures as handed in to this office. We have not had the reports from several voting places for three weeks, as they have been too busy (?) to bring them in. But they would not change the result either way very much.

The total votes up to the time of closing for last week are:

Kirby Smith Chapter	116,627
Odd Fellows' Home	71,276
Earnest Workers	38,029
Union Academy	7,015
High School	5,563
Knights of Pythias	2,586
Masons	1,450
Elks	1,270

It must be remembered that the friends of the High School are throwing their votes to Kirby Smith Chapter, as the ladies have promised to donate the reference books to the school in case the Chapter wins the library.

THE YELLOW FEVER.

Conditions Seem to be Improving at New Orleans.

New Orleans, August 26.—There were 24 new cases of fever reported up to noon today, with three deaths. There were 65 new cases in 24 hours up to 6 p. m. Friday.

There seems to be grounds for saying that the fever will be stamped out by October 1st. A partial quarantine has been ordered against the State and city. Italians who left the city carrying the infection to their places of refuge will be quarantined against.

Agricultural Society Adjourns.

Albany, Ga., August 26.—The annual convention of the state agricultural society closed Thursday afternoon, the second day's exercises proving equally interesting with those of Thursday. With very few exceptions the members of the society who were in attendance yesterday remained over today and the exercises have been well attended. Thursday afternoon the visiting agriculturists were taken out to the big shoals, making the trip on a special train provided by the entertainment committee. Some time was spent in inspecting the big work being done to harness the Muckafoonse creek. This work is now nearing completion and the big power plant will be in operation before the 1st of October.

Cut Woman's Throat; Kills Self.

Norfolk, Va., August 26.—Captain R. W. Jones of company E., Seventy-first regiment Virginia volunteers, killed Maud Robinson, better known as Maud Cameron, by almost severing the woman's head from her shoulders with a razor, and then attempted suicide by cutting his own throat from ear to ear with the razor which he had used on the woman. Jones is now in St. Vincent hospital. The murdered woman was 23 years old. Captain Jones is about 30 years old and unmarried. The tragedy occurred at the woman's house.

Taggart Unkind to Wife.

Wooster, O., August 26.—The depositions of Circuit Judge Berry and his daughter, of Newport, Ky., were read at the opening of the Taggart divorce case, both declaring that Mrs. Taggart had always, to the best of their knowledge, conducted herself properly. Emma Lyttle, the negro servant employed by the Taggarts for nine years, then took the stand. She swore that Captain Taggart had often been unkind to his wife; that no one occasion the captain had thrown Mrs. Taggart out of the house and used abusive language.

SPRING PARK FARM BUYS MORE STOCK

Manager Callison Adds More Jerseys and Hogs to List.

IS A WELL-STOCKED FARM

Mr. Callison Attended the Famous Biltmore Sale and Purchased a Number of Jersey Cows and Berkshire Hogs—Is Well Pleased.

N. A. Callison, manager of Spring Park Farm, Bennington, has returned from the Biltmore farm, North Carolina, where he went a few days ago to attend a special stock sale of blooded Jerseys and Berkshire hogs. Mr. Callison made a purchase of several head of cows and hogs, aggregating several thousand dollars.

Mr. Callison states that people from every section of the United States were present at this sale, as Biltmore stock is famous throughout the United States as being the best that can be produced, especially in the lines that were advertised upon this occasion. Sixty head of fine Jerseys were sold, the average price being $207.81. The most expensive animal disposed of was a two-year-old heifer, which brought $735.

Spring Park Farm is now the best stocked farm in Florida when it comes to thorough bred cattle. Manager Callison is working with a view of supplying the Southwest with pedigreed stock, and within the next few years Alachua county will be noted throughout the country as headquarters for cattle of this kind. Spring Park Farm now has a number of fine Hereford and Jersey cattle, Berkshire hogs, thoroughbred goats and sheep, and is bound to come out a winner on fine stock. Manager Callison is a thorough stockman and knows where to get the best material. He is raising only the best stock, and his exhibit at the State Fair will show that he is thoroughly posted and has secured the stock best adapted to Florida.

Want Insurance Rate Rescinded.

New York, August 26.—Sixty-three councils of the Royal Arcanum in this city probably will appoint a delegation to the spencial convention of the supreme council to be held Aug. 30, at Put-In-Bay, O., to see that the 15 supreme representatives of New York stand by their privileges to vote, for the rescinding of the new rate laws established by the council last May. A call was issued yesterday with the object in view. It asks the local councils to meet in special session, when it is proposed to dicuss the matter and if found feasible, the delegation will be appointed.

Carpenters Get Demands.

Boston, August 26.—Six thousand union carpenters of Bosto nreceived an increase of wages under the decision of Judge George T. Wentworth to whom, as special arbitrator, the employers and unionists submitted the question of a new working agreement. Judge Wentworth grants the five main demands of the carpenters, including a wage increase of from 37½ cents an hour to 41 cents, or from $3 to $3.28 for an 8-hour day, double time for all over time, instead of time and a half and an 8-hour instead of a 9-hour work day, for all shop and mill hands.

Female Musical Composer Dead.

Chicago, August 26.—Word was received by the authorities of the Western university last night that Mrs Sadie K. Coe, wife of Dr. George A Coe, who holds the chair of philosophy at the university, died yesterday in a sanitorium at San Francisco after a desperate operation. Mrs. Coe was a well known pianist and composer, and was considered an authority on musical subjects. Her most noted work was a musical setting of Longfellow's "Hiawatha."

Comparing the fever situation at New Orleans now with other years, it is quite apparent that the worst is over, or that they have the contagion well in hand.

Pensacola will have a society paper. It will be named "In the Swim," and be published 16 weeks, or during the social season, and after that time it will be in the soup.

The wreck of the old steamboat City of New Orleans, which sunk in the Missouri river fifty-three years ago, has been located. It had a cargo of one hundred and sixty barrels of whiskey, and was then valued at $75,000.

A Russian dispatch from Damliesky says that Linevitch drove a half-dozen supposed Japs back who were making an attack on Chickencoopsky, and the Czar immediately sent a cipher that he would not give one cent for tribute, but fight it out.

A federal veteran recently gave up a pension of $30 a month received for injuries sustained during the Civil War, on the ground that he had become a Christian Scientist. This suggests a valuable use for Christian Science in relieving the pension drain upon the United States Treasury.—Atlanta Constitution.

FEVER SITUATION.

The yellow fever has more terrors for many people of the North than any other one thing that can be mentioned, and the statement that it prevails in New Orleans is enough to frighten them from getting any nearer the scene than Mason and Dixon's line. While it is necessary to use caution at all times, there is no cause for alarm at the present time even at New Orleans, where they have the contagion well in hand.

Many people in the North are not aware of the precaution taken in the South to check the fever's spread, and in Florida there is no danger, although it will be no easy matter to make the timid ones believe it.

The people who remember the outbreak of 1878, think of that dreadful occasion and draw comparisons, when it is a fact that there is no comparison, that visitation being much worse. An interesting table compiled by The Atlanta Journal is proof of this fact, as the figures show. The first column of figures shows the deaths during the dates given for the present year:

	1905	1878
July	62	39
August 1	6	7
August 2	11	7
August 3	5	7
August 4	5	11
August 5	8	12
August 6	8	5
August 7	8	7
August 8	4	11
August 9	7	12
August 10	5	8
August 11	9	14
August 12	9	12
August 13	12	21
August 14	12	20
August 15	6	7
August 16	4	29
August 17	4	27
August 18	8	47
August 19	4	41

All that the South asks is that the rest of the country be fair and tell only the truth. Florida is leaving nothing undone to keep the fever out of the State and there is no more danger of an outbreak here than there is in any other State if the health laws are observed.

TEMPERANCE IS GAINING.

The annual report of the commissioner of internal revenue, recently published, shows that for the first time in seventeen years there has been a decrease in the consumption of distilled spirits in this country, although for three or four years there has been a decline in the rate of increase of consumption of spirits. But, during the fiscal year ending June 30th, there was an actual decrease approximating a million gallons. This was exclusive of the spirits distilled from fruits However, there was a considerable falling off in the amount of fruit liquors consumed. There was, however, an increase in the consumption of beer, though it was only about half as large as the yearly increase recorded during several previous years.

This is a most gratifying showing, indicating the growth of the temperance spirit throughout the country. During the year covered by the commissioner's figures, just referred to, there were admitted to the country about 1,000,000 immigrants, the great majority of them being men and consumers of beer and wine. This added population would account for the increase in beer consumption, leaving an actual decrease by the native and older population.

The people, considered as a whole, probably have more money now to spend for luxuries than they have had for many years; and they are doubtless spending more for luxuries, but liquors are not included in the list. The people are prosperous, hence are not worried, as would be the case if they were undergoing a period of hard times. Meanwhile the cause of temperance has made a substantial gain.

WILL MAKE HOMES

A new way to dispose of some of the large ranches in the West has been adopted and a recent land deal in Oregon will illustrate the plan. The largest stock ranch in that State and one of the largest in the United States, where 20,000 head of cattle and 1,000 horses have been handled annually for years, will now be converted into homes for 10,000 people, if the plans of the Cooperative Christian Federation are carried to success. This French-Glenn ranch in Harney county, comprising 164,000 acres, has been sold for $1,800,000. It appears that the Mormons were anxious to get this property, but the Cooperative Christian Federation—whatever that may be—outbid them. This immense ranch in Eastern Oregon was developed by Peter French and his partner, who began in a small way as early as 1872. French was killed by [illegible] stockmen and the death of Glenn followed a few years later from natural causes. Their heirs organized a California corporation that has since operated the property.

This will be the first of the big ranches of the Northwest to be cut up for homes for settlers. It is located about 4,000 feet above the level of the sea, and the climate is very similar to that of like altitudes in Colorado and Nevada, with a superabundance of sunshine. In winter there is some extreme cold, but usually not prolonged and without the severity of the blizzards which sweep the great plains. Railroad connections are about 150 miles away from the ranch and its new owners hope that a line will be carried to them. The property is sixty miles long by twenty-five miles wide, and already has more than 500 miles of fencing. The price offered for the land is $10 an acre, with $400,000 for personal property, and this is called a low valuation.

THE STEGOMYIA FASCIATA.

The question of who first advanced the mosquito theory is now before the people, and The Mobile Register says:

"The Okolona (Miss.) Sun welcomes with hilarity Col. Lamar Fontaine's entry into the discussion of the mosquito theory. The Colonel says that he became satisfied in 1857, while on the Panama Railroad under Major Henry Meigs, that the sole cause of the spread of yellow fever was the mosquito, and that he wrote several articles for the New Orleans papers at that time, giving his reasons for this belief, for which assertions he was severely criticised and tatooed by the medical fraternity. The Sun thinks the Colonel is simply 'butting in' for the sake of notoriety, and says that, 'like wine and Baron Munchausen, Lamar improves with age.' Not so fast, contemporary. If there were articles in New Orleans papers in 1857 announcing this theory, they are there yet, for the newspaper files are preserved; and the truth can easily be demonstrated. It would be something of a contribution to the literature of yellow fever if the fact could be established who was the first to put forward the mosquito as the agent for the spread of the disease. It has long been held that a Mobile physician was the first, but if Col. Lamar can establish priority for himself he will be entitled to the honor."

TO LIVE TO BE A HUNDRED.

Burgess Charles H. Pennypacker of West Chester, Pa., gives these rules to be observed by men over 50 who wish to live to be 100, says The Pittsburg Gazette:

1. Eat two small meals each day. Eat all the apples you can.

2. Walk erectly and spend as much time as possible in the open air. Abstain from milk, tea, coffee and stimulants.

3. Avoid growling, grumbling, discontented people.

4. Have no discussions on religion, diseases or the abilities or the disabilities of women.

5. Show by your words and your deeds that it is better to be old and sound than young and unsound, and that you are sound.

6. Read all the newspapers and all the magazines you can. Equip your conversation with good English. Never remark "When I was a boy," never mention "the good old times" lest your hearer would regret that you had not died when young.

7. Keep your temper. Anger ruins your stomach, corrugates your soul. Never discuss persons when you can talk about other things. Observe the amenities, the small, sweet courtesies of life, the gentilities of social intercourse. Refuse to listen to detraction.

8. Live within the bounds of your circumstances.

ORANGE CROP.

The New York Commercial says that from private advices from the principal orange producing sections of Florida give the prospects for the 1906 orange crop as favorable for a yield of over 60 per cent of the production of last season. Estimates made by the most conservative interests based on complete private advices from growers actually in a position to know give a crop for this season between 800,000 and 1,150,000 boxes. These estimates include both oranges and grapefruit. Last year the output was around one million boxes. Said a prominent factor in the Florida orange business recently:

"The January freeze is responsible for the shortage promised this season. [illegible] producing sections were killed, and it is a safe prediction that the output will be cut down at least 40 per cent. Some figure a greater shortage than even that. The fruit gives promise of being good. I look for shipments to be made early in October, though a good deal depends on the weather. If it is cool we will have early shipments. If the weather is warm the fruit will be late."

The Jacksonville Times-Union of Friday says that "one of the items of freight to be carried out on the steamship Apache today will be 500 bales of Sea Island cotton. In view of the fact that the present crop of Sea Island cotton will be short, on account of excessive rains, the price of the long staple cotton has gone up, and the shipment on today's Clyde Line steamer will no doubt bring a good price."

Jacksonville people have been accused of being of a grasping disposition and wanting the earth, so to speak, but the latest evidence of greed is the kick by Health Officer Miller, who insists on getting milk with cream in it.

London women are going wild over jiu jitsu, because by it they can throw a man down. Many men have been thrown down by women who never heard of jiu jitsu, and they have been happy ever after.

The Sultan of Morocco owes France $2,000 and if he don't come down with the money they will send an army after him. There should be a larger limit to the war game.

Johann Hoch, the Chicago man of many wives, will have his case taken to the supreme court. It just seems as though the girls couldn't bear to have him hanged.

New York is progressing every day. They now have lightning fire kindlers. One kindled a few days ago by lightning did $500,000 damage.

A meeting to "do something" for good roads will be held at the court house, Lake City, September 7th. Push the good work along.

Are the wives who are deserted by their husbands considered "abandoned women?"

FAMILY REUNION

And Enjoyable Neighborhood Picnic at Wacahoota.

On Friday, August 11th, quite a delightful picnic was held under the wide-spreading oak trees near the residence of L. M. Smith. Nice seats were placed here and there for those who liked to chat and enjoy the delightful breeze.

The croquet ground was full of happy girls and boys most of the day, while some who were of a more active nature enjoyed playing baseball and "drop the handkerchief," some of the elder people joining in these pastimes.

A delightful feature of the picnic was the reunion of the Smith family. The mother, Mrs. J. Porter Smith, a most lovable Christian lady, and all of her children, were present. It has been a number of years since they were all together and each made an effort to be present at this pleasant meeting, as will be seen by the distance some of them had to come. Messrs. Polie, Lawrence, Willie and Charlie Smith, with their families, reside in this community, while those from a distance were Mrs. Isaac Rawls, accompanied by her husband and one son, from Montbrook; Mrs. C. C. Pedrick and two charming daughters and son, and Mrs. Jim Bauknight and daughter from Gainesville; Mrs. Hazel and two sons from Johnston, S. C. A score or more of grandchildren were there to partake of the pleasures of the day, and we hope this happy family may have many more reunions.

The friends from a distance were Miss Irene Beck, Fellowship; Mrs. Raleigh Beck, Jacksonville; Mrs. Cone and son from Raleigh; George McDonell, Shell Pond; Mr. and Mrs. George Bradley, Plant City; Mrs. Gray and Rev. Prisco, Flemington; Miss Lizzie Matthews and brother, Tacoma.

At one o'clock a most bountiful repast was spread on the table which had been made for the occasion. All had good appetites for the dainties the ladies had prepared, and we think there were "twelve basketsful of fragments" when all had eaten until they felt as though they could not eat any more.

During the afternoon a shower came up and dampened the ground, but not the pleasure of the day, for the crowd repaired, to the house where the young ladies entertained them with music, while flinch and croconole were enjoyed by some.

Late in the afternoon the good-byes were said, each one having spent a lovely day and hope to spend many more as pleasantly together.

The party at the home of L. M. Smith, Friday evening, August 18th, was quite a success, and all had a royal good time, though the inclemency of the weather prevented some from a distance attending. Mrs. Smith and her accomplished daughter, Miss Marion, are charming hostesses and did themselves credit on this occasion.

TUBEROSE.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Picnic at Windsor.

There will be a picnic in front of the residence of J. W. Tillman at Windsor, on Wednesday, September 6th. Refreshments of all kinds will be furnished by Messrs. H. L. Cannon and J. W. Tillman. A place for dancing under the trees will be prepared and good music furnished, and all are invited to come and have a good time. The grounds are very pleasantly located for a place of enjoyment, with plenty of shade and a beautiful lawn.

Public is Aroused

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

FLINN-GALLOWAY.

Two Young People From Ocala Are Hurriedly Married.

There was quite a commotion at the county court room early yesterday morning, caused by the arrival in the city of a very nervous couple that desired to be united in the holy bonds that make divorces possible.

The party arrived from Ocala and the gentleman escorted the young lady to the Brown House about 7 a. m., and while she was enjoying her breakfast the gentleman found George Mason, who officiates in such cases during the absence of the Judge, and secured a license to wed for R. W. Flinn and Miss Mamie Galloway, both of Ocala. They then went to the hotel and the happy pair started for the Baptist parsonage, where Rev. S. B. Rogers made them one.

Mr. Flynn, the groom, is a comparative stranger here, but the bride is known to some of our people, being the daughter of John P. Galloway, for many years sheriff of Lake county, but at the present time a successful turpentine operator.

After the ceremony the newly wedded couple took breakfast at the Brown House and a few minutes later departed on the train south, apparently as happy as if they had been pelted with rice by a "host of admiring friends."

It was thought by some that the haste made by the couple was on account of there being some objection, but both were apparently old enough to know their own minds, and we hope they will never regret their wedding day in Gainesville.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, $1 00. Sold by W. M. Johnson.

NEW FISHING LAW.

Omission of Enacting Clause Said to Make It Worthless.

The Palatka News has the following item regarding the new fish law, which may be of interest to many readers of The Sun:

"R. D. Stubbs and George Schaff, local fishermen, were before Judge Coxe on Tuesday for violating the provisions of the new law prohibiting seining. They were represented by Capt. E. Noble Calhoun, who made a plea for their discharge on the ground that there was no enacting clause to the law. Judge Coxe held the point well taken and dismissed the men.

"Capt. Calhoun will contest the constitutionality of the law before Judge Call of Jacksonville on the ground that it is special legislation in that it only prohibits seining on the inland waters of Florida south of Jacksonville, but permits it on the St. Johns from Jacksonville to the ocean, thus giving a monopoly of the fishing business to Representative S. H. Melton of Jacksonville, who does all his fishing in the waters not prohibited. Like most fishing laws passed in Florida for the past many years, it was probably edited by the Tallahassee fishing lobby and was known to be defective in holding qualities when passed."

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

Editor Bittinger of The Ocala Star is being mentioned for Governor of Florida in the New York papers.

SEVEN PEOPLE ARE DROWNED.

Were Living in a Shanty Boat Which Sunk in a Collision.

Maysville, Ky., August 25.—News has reached here of the probably drowning of a man named Gates and his wife and five children in the river between Maysville and Dover.

Gates left here in a shanty boat, intending going south and tied up for the night at a point below Ripley on the Kentucky side. The rising river caused the boat to break loose and float to midstream.

A tow boat coming upstream with empty barges struck the shanty boat, demolishing it, the family being asleep when the accident occurred. No one has seen the shanty boat since then or heard from any of the family. Every effort has been made by a local insurance agent who had insured several members of the family to locate them, but he has been unsuccessful, and it is believed that the entire family perished.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

Taft Party at Tacloban.

Tacloban, via Manila, August 25.—The transport Logan arrived here at 10 o'clock this morning with Secretary Taft and party on board. The distinguished visitors after enjoying a ride to San Juanico straits, on the coast guard cutters, witnessed a general parade of citizens of Tacloban, who showed every sign of the business prosperity. They were subsequently entertained at luncheon after which they witnessed a dance of native school children. Governor Curry, of Samar Island, introduced a delegation of 500 natives from that place whose appearance constituted one of the most picturesque fetures of the festivities.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

Georgia Tax Rate Fixed.

Atlanta, August 25.—It is practically settled that the state tax rate for 1905 will be $4.90 on $1,000. While this rate is 10 cents more than that of last year, it will still be 10 cents under th econstitutional limit of 5 mills, on $5 on $1,000.

The Gainesville Realty Company, Ltd., has leased the Ben Arnow property, West Liberty street, comprising four acres, and proposes to erect a number of cottages for rental purposes. The cottages, while modern, will be built with a view to accommodating the moderate class and will no doubt find ready demand.

Mrs. Moses Edelstein and children have returned from New York State, where they spent a couple of months. Mrs. Edelstein divided the time equally between New York City, which is her old home, and the Catskill mountains, and passed a most pleasant season, in which she and the children were benefited. Friends are glad to see them home again.

Mrs. J. H. Truby has returned from several weeks' stay at Washington, where she went in answer to a telegram announcing a serious accident to Mr. Truby's mother. She left the patient almost entirely recovered, and, but for the sad mission which called her to Washington, reports a pleasant time. Mr. Truby met her and the baby at Jacksonville on her way home.

Attention is directed to the advertisement of the Gainesville Realty Company, Limited, which appears elsewhere in this issue. This company is capitalized at $15,000 and is organized for the purchase and sale of real estate, collection of rents and accounts, brokerage, fire and life insurance, etc. It is composed of gentlemen of integrity and energy, and no doubt will prove a success.

J. A. J. Strickland of Hague, one of the most widely known residents and most successful farmers in that section, was in the city yesterday. Judge Strickland states that while the rains have been severe in his section the crops have not been materially damaged. The lint in the fields has been gathered, and the damage was slight. Other crops seem to be growing prolifiely and show no immediate signs.

L. C. McClenny, formerly of Cadillac but now of Astor, where he has secured an extensive logging contract for T. V. Cashen, was in the city yesterday. Mr. McClenny came from Ocala to Gainesville in charge of forty head of mules which he will place on pasturage at Cadillac, preparatory to placing them to work in early fall. He is extensively engaged in crosstie and logging contracts, and will see a great many teams during the season. Mr. McClenny, although a young man, is full of energy and business.

Notice of Teachers' Examination.—An examination for granting teachers' certificates for first, second and third grades will be held at the academic hall of East Florida Seminary for white applicants, and at Union Academy for colored applicants, beginning on Tuesday, September 5th, 1905, at 8 a. m. GAINESVILLE AND OCALA.

Two Teams Will Play Ball and Give Gainesville Fine Games.

The Gainesville fans will have an opportunity on Monday and Tuesday afternoons of witnessing some good ball playing, the Gainesville and Ocala teams, colored, having arranged for a series of two games.

Both teams are in fine condition and will no doubt put up good games. They have played eight games so far this season and are yet even, which will make this contest all the more interesting. The teams are evenly matched and those who attend the ball park on Monday and Tuesday are assured of something exciting.

The game will be called Monday at 3:30 o'clock and the players should be greeted by a good crowd, as that will be encouraging. The admission will be 15 and 25 cents.

IN MAYOR'S COURT.

Joe Rutledge Used Profane Language and Paid the Penalty.

Because Joe Rutledge insisted on telling a colored female companion, Bertha Raney, "what he thought about things" in rather ungentlemanly terms, he was arrested and arraigned before Acting Mayor Broome yesterday.

The charge was brought by the Raney woman, who declared in court that Rutledge "cussed around" so ridiculously that it was a disgrace to the neighborhood and attracted the attention of people passing. Witnesses testified to the same thing, which meant that Rutledge was in a hard row. He was fined a dollar and costs or ten days in jail. The fine was paid.

A Prominent Visitor.

Among the prominent visitors to this city is L. M. Graham of Conner, Marion county, one of the oldest and most widely known residents of that section. He is on a visit to his son, Dillon M. Graham, agent of the Southern Express Company. Mr. Graham is a veteran of the Civil War, having been a member of the Fourth Florida regiment, and fought under Generals Bragg, Johnson and Hood in the Army of Tennessee. He experienced a great deal of hard service and talks of the war and his experience with interest.

Mr. Graham met a number of his old friends here, some of whom were comrades, and it is needless to add that the meeting was a pleasant one.

A Narrow Escape.

Justice R. P. Lumpkin and W. P. Boulware of Orange Heights came near being victims of an accident which might have caused their death Friday afternoon. Messrs. Lumpkin and Boulware had been to the city on business, and were driving home. When a few miles out a large tree fell across the road, missing them only a few inches and smashing the rear wheels of their vehicle almost to splinters. The buggy was seriously disabled, but without being daunted they made necessary repairs and proceeded home.

It has been decided that we are entitled to permit the casting of 200 votes in the free library contest for each yearly subscription paid for prior to October 15th, 1905. Subscribers who have paid for the paper since June 14th are entitled to vote. Coupons can be obtained at this office.

The Twice-a-Week Sun being entitled to permit the casting of 200 votes in the free library contest for each yearly subscription paid for, the ladies of Kirby Smith Chapter, U. D. C., take this method of notifying those who pay their subscriptions prior to 7 o'clock p. m. of October 14th, 1905, or who have paid since June 14th, 1905, that the Chapter will greatly appreciate their support. Should the Chapter win the library the reference books will be given to the Gainesville High School, where they are badly needed, and the others to the Hospital Association. Simply write the editor of The Sun to permit Mrs. J. F. McKinstry, Jr., to cast your vote, and the ladies will greatly appreciate same.

Registration Notice.—Notice is hereby given that the registration books of the City of Gainesville are now open at my office in the United States land office, where all persons qualified to register, including residents of the new territory added to the corporate limits of the city by the new charter enacted by the last Legislature, may register between the hours of 8 and 12 a. m. and 1 and 4 p. m. Books close on Saturday, September 9th, 1905. J. M. DELL, City Clerk.

Mr. and Mrs. J. Fletcher Hill and son have returned from Flemington and Micanopy, where they have been on a pleasant visit to relatives and friends.

INSTALLATION OF ELKS.

Gainesville Lodge No. 990 Will be Instituted Wednesday.

After a long, tedious wait, Gainesville Lodge No. 990, Brotherhood Protective Order of Elks, will be instituted in this city on Wednesday of the coming week.

Gainesville has experienced considerable trouble in having this lodge instituted. At the beginning there was some misunderstanding as to whether Lake City or Ocala should act upon the charter list and it was finally sent to Lake City, which lodge acted favorably, but in the meantime the Elks of Ocala made a vigorous objection and claimed the right for themselves. Everything was in readiness for institution when this objection was made, which delayed matters considerably, as Ocala insisted upon her rights, which seemed to be just in the matter, and it was necessary to defer the matter until the Ocala lodge could take action.

At the meeting Tuesday night the Ocala lodge brought the matter up and disposed of the same, passing favorably. The result is that Ocala, instead of Lake City, will institute the lodge here. Lake City has been invited, however, and it is hoped that they will have good representation at the installation, as the Gainesville folks are desirous of showing their Lake City brothers that they are friendly. Their presence is requested, and with the assurance that they will never be more loyally entertained.

Grand Exalted Ruler Burbridge of Jacksonville will be on hand and expects to bring a number of his Jacksonville brothers with him. They want to see the thing "done up right," and there is a great deal in store for the visiting Elks upon this occasion.

The order will start out well here, as there is a charter membership of eighty and every man is a good man and will make a good Elk. The occasion is anticipated with a great deal of interest.

NOTICE

Notice is hereby given that after this notice has been published for four weeks, I shall apply to Hon. J. T. Wills, Judge of the Circuit Court Eighth Judicial Circuit of Florida, in and for Alachua county, Florida, for an order authorizing me to adopt Eva Ward, a minor. W. E. HILTON.
